Lubricating Oils

Will be used very freely for the next 6 or 8 months so we wish again
to call the attention of all mill men and users of machinery to our TROPIC
LUBRICATING OILS. For years it is brand has been used on these Is-
lands and each season the demand has increased so that this year we have
had to build a special oil warehouse at Kalahele to hold the hundreds of
barrels of oil we have to carry in stock. Tropic Cylinder, Engine, Ma-
chine, Dynamo and Carbox Oils are the ones you want if you want every-
thing to run smoothly.

Benton Boiler Compound

This compound is entirely vegetable, contains no oil or acid, it being a
natural preservative for iron or steel. It rots the scale in the boiler and
gradually cleans same. After the boiler becomes clean, the Compound, if
used according to directions, will keep the scale forming properties of the
water in the form of solution or deposit, and the boiler can be kept clean,
and the scale forming properties of said water can be blown out in the form
of mud. It is a great saver of fuel as it will clean and keep clean any
boiler. For a send you a barrel on trial, no pay if not satisfactory.
Packings, Waxes, Compounds, Engineers' tools, and supplies of all kinds.

OFFICE OF THE BOARD OF HEALTH.

Honolulu, H. I., Jan. 8, 1900.
At a meeting of the Board of Health
held this afternoon a resolution was adopted
with relation to steamers leaving Hono-
lulu for Island ports, which provides as
follows:

1. That all steamers or other vessels
engaged in inter-island commerce, are pro-
hibited from approaching closer than 100
feet to the wharves, except by special per-
mission of the Board of Health, and that
they proceed outside the harbor and re-
main at anchor during the night.
2. That no passengers be allowed to
leave Honolulu for other ports on the Is-
lands until further notice. This does not
apply to Japanese laborers from the Quar-
antine Station at Maui to the steamer
without communication with the shore, or
to cabin passengers who have been trans-
ferred directly from foreign steamers with-
out communication with the shore.
3. That shipment of food and fodder
materials be allowed only when same are
transhipped from foreign vessels lying in
the stream (without having touched the
wharf.)
4. That shipment of the following
articles, not liable to infection be permitted
from the port of Honolulu under super-
vision of the Board viz:
Coin in bags (after boiling or disinfec-
tion), Lime, Machinery, Coal from vessels
in harbor only, Bricks, Portland Cement,
Sugar bags (when same are disinfected by
steam or other effective means), and such
other articles as the Board may deem
equally uninfected.
